Bible Knowledge Survey – Grad Instructions

This Bible Knowledge Survey is taken by students in their first year at Briercrest and in their graduating year. **The purpose is two-fold.** For the individual, this survey (while not comprehensive) offers a sense of where the student is at in their Bible knowledge and can be compared to the national average in North America. For the institution, the results are used as an important measurement for program review and accreditation. **Please know that the results will not be counted towards your GPA or any course grades. So don't be anxious, just do your best!**

Guidelines

1. Complete the survey on your own **without accessing any sources (Bible or internet).**
2. Plan to complete the survey in **one 45-minute sitting** when you won't have any interruptions.
3. Since the survey consists of 150 questions, **we recommend that you spend no more than 20 seconds on each question.**
4. Some questions may seem obscure and the answer unknown to you, but again don't be anxious. If you don't know the answer **you are welcome to guess.**
